

Grow hope.

Last year, Grow Hope “farmers” sponsored over 300 acres of Manitoba farmland, raising over \$150,000. After government matching, that meant up to \$850,000 for MCC!

It’s not too late to join this year by becoming a farmer, and make your \$300 turn into \$2,500 of relief for hungry families around the world.

Sponsor an acre of rural farmland for \$300

After harvest, your acre may be worth as much as \$500

That money may be matched by the Government of Canada, which means your combined donations can become \$2,500

Your donation grows and multiplies—just like the seeds planted by the farmer!

Become a farmer and watch your donation grow.
Sponsor an acre today!
